## Principal's Address

We are glad to bring out the fourth issue of "Granthavedh" our half yearly electronic publication mainly focus on increasing reading habits among our students and giving updates about library collection, new online resources available and different activities conducted in the college.

Library is considered as heart of an educational institute. It is main source of knowledge and now provides access to information by various ways using ICT and Web Technology. New ways of teaching and learning are emerging to cope up with students centered education system.

Benjamin Franklin quoted that "An investment in knowledge pays the best interest". It is only because knowledge builds new knowledge. It is cyclic process.

Along with Dissemination of knowledge in "Granthavedh" attempt has been made to give opportunity to create new knowledge by using knowledge available in the library and disseminated in the classroom.

This platform invites staff and students to share their knowledge in the form of articles, reviews on different resources they are accessing.

The present issue covers book, journal reviews, articles on innovative teaching, innovation in the field by students and staff, year 2013 special highlights like 150<sup>TH</sup> Birth Anniversary of Swami Vivekananda and International Statistics Year will add value to our constant effort of bringing out reading, writing and research culture in the college.

Congratulations and thanks to all whom have contributed their work in this issue.

THE SECRET is an documentary type book written by American novelist RHONDA BYRNE IN 2002 and published by MANJUL PUBLICATIONS in INDIA. It's basically a theory based book which reveals the SECRET of our life.

I read this book last year and also saw the movie THE SECRET and i totally shocked and wondered by the theory written in this book which is awesomely written by RHONDA BYRNE.

The theory in this book states-

*"Every human being in the world..each and every human being is working with unlimited power in their thoughts. Each n every thought came in our mind is for making our own world. So we should chose the positive energies in every situation either it may be of difficulty or of happiness. We should handle every situation with positivity..whatever came in our mind is thrown in UNIVERSE and UNIVERSE like magnet sends that vibrations of thought to related object in that thought and UNIVERSE stands by you to make your thoughts to become your FUTURE.."*

In short i got lesson from the book THE SECRET is-

## Book Review

'मूडस्' - डॉ. कोत्तापल्ले यांचा मनोवेधन काव्यसंग्रह

ग्रामीण साहित्याचे साक्षेपी समीक्षक व अत्यंत सकस लेखन करणारे सुप्रसिद्ध साहित्यिक डॉ. नागनाथ कोत्तापल्ले यांनी साहित्यविश्वातला अत्यंत मानाचा सन्मान प्राप्त झाला. चिपळून येथे झालेल्या ८६ व्या अखिल भारतीय साहित्य संमेलनाचे अध्यक्ष पदही त्यांना लाभले आहे. कथा कादंबरी व कविता या तीनही क्षेत्रात त्यांनी आपल्या लेखनाने मोलाची भर घातली असून 'उदयाच्या सुंदर दिवसासाठी' नावाचा त्यांचा ललितलेख संग्रहही अत्यंत सुंदर आहे. जिवनाकडे सकारात्मक भूमिकेतून बघणाऱ्या कोत्तापल्ले सरांच्या विचारांचे प्रतिबिंबच या लेखनातून पडलेले दिसते.

'मूडस्' आणि 'नंतरच्या कविता' नावाचा त्यांचा कविता संग्रह सायन पब्लिकेशनने प्रकाशित केला आहे. हा संग्रह वाचकांना निश्चितच खुप नवा जीवनानुभव देऊन जातो. समाजातील अपप्रवृत्तीवर व विसंगतीवर या कविता भाष्य करतात. "औपरोधिक पध्दतीने जीवनाकडे पाहण्याचा एक धागा प्रारंभापासूनच माझ्या कवितेत आहे" असे स्वतः डॉ. कोत्तापल्ले म्हणतात. त्यांच्या या वाक्याचा प्रत्यय त्यांच्या पुढील कवितेतून सहज येतो.

हे जरतारी बाहुल्यांचे राज्य  
तत्वाचा विणता विणता कशिदा  
डोळे झाकून खायचा मलिदा  
गिधाडी झेपा भरजरी शपथांच्या  
आक्रोशांना टाळून पुढे जाणाऱ्या...  
वटवाघळी लोंबकळणे सिंहासनावरती  
नकळत सुटतात पाय  
प्रेतवत चेहरे निघतात झांजांच्या तालावरती  
नव्या ध्वजांच्या शोधात  
बुद्धिवंतानी केलेल्या कौतुकाच्या गजरात  
कोप-यात झुरणारी माणसं  
कुणाच्या लक्षात येत नाही  
नुसताच गदारोळ घोषणांचा ध्वजांचा  
या क्षितीजा पासून त्या क्षितीजा पर्यंत...

ज्यांच्या मतांवर सत्ता लाभते त्या सामान्य माणसांची गत या लोकशाहीत किती केवीलवाणी आहे याचे दाहक चित्रण त्यांच्या या कवितेमधून झाले आहे. जगण्यासाठी चाललेली जिवघेणी धडपड त्या साठी उभ आयुष्य पणाला लावून माणूस झगडत असतो. या भिषण वास्तवाचे दर्श नाही या कवितांमधून होते.

कोत्तापल्ले सरांची ही वैविध्याने नटलेली कविता म्हणजे अनेक भावनांचा संमिश्र आविष्कार आहे. मराठी कवितेच्या प्रांतात ती त्या मुळेच लक्षवेधी ठरते.

"आयुष्य चार भिंतीचे झाडाच्या एकुलत्या फांदीवर विसावलेले त्यासाठी केवढा आटापिटा केवढा सोस नि किती प्रश्न आर्त विव्हल".

जगण्यातील अपरीहार्यता अनेक तडजोडी स्वीकारून जगत असतांना माणसाचे माणूसपण कसे गळून पडते याचे त्यालाही भान राहत नाही. या यंत्र युगात जगताना माणसाचे चित्रण करताना कोत्तापल्ले लिहीतात

"हे शहर म्हणजे प्रचंड अजगर आहे

येथे जगण्यासाठी मरणाची तिरडी आवळावी लागते".

खरं तर महानगरीय संवेदना व्यक्त करतच कोत्तापल्ले सरांची कविता आशयसमृद्ध होत जाते. अनेक प्रतिक व प्रतिमांनी संपन्न झालेली कविता वाचकांना अस्वस्थ करित जाते. पण काहीवेळा ही कविता प्रयत्न व लोभस रूप धारण करते. उभ आयुष्य आपल्या जोडीदाराला समर्पित करणाऱ्या सहचारिणीचे मनोहारी रूप ती प्रकट करते. "मी कोसळतो तेव्हा सावरणारे हात तुझेच असतात किंवा माझ्या पराभवाची संतत धार झेलतेस तू" या सारख्या ओळी ती चे स्वाभाविक चित्रण करतात. तिच्या आई होण्याने आनंदित झालेला नायकही या कवितेतून सुंदर साकार होते.

आठवतेस मला तू पोरांच्या जावळासकट

टेव्हा बोटांना जाणवतो तेलकट स्पर्श

उभी असतेस तू पोरांपेक्षाही पोर होऊन

टेव्हा वाटते मातृत्वामधून

खरतर तुझाच जन्म झालेला असतो

णव्याने जन्मलेली तू किती प्रसन्न

किती तरुण...!

कोत्तापल्ले सरांची ही वैविध्याने नटलेली कविता म्हणजे अनेक भावनांचा संमिश्र आविष्कार आहे. मराठी कवितेच्या प्रांतात ती त्या मुळेच लक्षवेधी ठरते.

## Skill Development the field of Sociology

**Prof. Jyoti Gagangras**

**Vice Principal, Arts Faculty**

I think that today we need to give modern touches to the traditional education. The syllabus has to be developed by focusing on the need of the students. They should be the center of the objectives. The syllabi have to be evaluated and modified in order to get a larger number of admissions for the traditional facilities. Our culture, values and arts should not be ignored while framing the syllabus. The global economic, social and political scenario is continuously changing. We cannot afford to restrict our perspective to nation but have to make it international. We have to bring together old and new trends, so also higher education and occupational, professional skills.

We have to look at the syllabus with this in the mind. I become aware of some shortcomings while teaching sociology in the class and while working in the syllabus committee, I have noted some constraints. The syllabus is common for both rural & urban students. Examinations and papers are the same for them. But there is great difference between the facilities, scope, economic & social conditions available for the rural and urban students. In our Modern College, 50 to 60 % of students come from semi rural area, 20% from rural & 20 % from the urban areas.

The urban students get excellent facilities of library, computers, internet exposure and guidance from educated parents. Rural and semi rural students are not much benefited from there facilities. That is why they can not develop their competence and grasping capacity. It is not fair for the teachers to give equal time to all these students. So in our college we offer more time and more attention, more homework to the rural and semi rural students. We try to motivate and make the students speak in the class. I can say that we are succeeding in these efforts.

Teachers and students discuss the problems with the staff, senior citizens and officers there. This makes the students more keenly aware of the problems. They develop sensitivity, too. By observing the systems there, our students have been eager for that kind of training.

While teaching investigation techniques to TYBA students, practical of surveys, Questionnaires, Observations, Interviews were used as practical's. There practical's were conducted in the rural parts i.e. villages like Mulshi, Ambi, Kharavade.

Some other practical work added to our teaching is wall Magazines, on child labour, Terrorism, killing of girls in wombs and other current issues. The teamwork of the students brought out good current issues. The teamwork of the students brought out good issues of wall papers. The lecture series helped them to achieve knowledge and the activities developed in them communication skills and leadership qualities that are great assets in their future jobs.

I humbly claim that our students have shown that our efforts are successful. Many of our students are employed in police services, social institution and MSW Course.

### **Conclude**

Thought it is difficult to make radical changes in the syllabus at the moment we have achieved at least something with our techniques.

## Book Review

राधेय

लेखक रणजित देसाई

मुल्य ११०

प्रकाशक मेहता पब्लिशिंग हाऊस .

राधेय ही महाभारतातील एक महत्वपूर्ण- व्यक्तीरेखेच्या जीवनावर आधारित असलेली कांदबरी होय . कर्ण हे महाभारतातील अत्यंत वैशिष्टपूर्ण- पात्र होय . अर्थातच त्यामुळे त्याकडे मराठी लेखक नेहमीच आकृष्ट होतात . या महान नायकाच्या जीवनावर मुल्युजंय सारखी कांदबरी ही लिहीली जाते . रणजित देसाईनी देखील या व्यक्तीरेखेच्या शोधाचा प्रयत्न आपल्या राधेय या कांदबरीतून खूप छान केलेला दिसतो .

आपल्या लेखन कौशल्याच्या बळावर रणजित देसाई यांनी पुस्तकातील प्रत्येक पात्र जिवंत केले आहे आणि कर्णा मधील राधेर्य ला न्याय मिळवून दिला आहे . राधेय या पुस्तकांची सुरुवात रणभूमीवर केली आहे जेथे युधिष्ठीर सर्व युद्धात विरगती प्राप्त झालेल्या विराना तिलाजंली देत असताना कृष्ण युधिष्ठीराला कर्णासाठी तिलाजंली देण्यास सांगतो नकार देणा-या युधिष्ठीराला कृष्ण म्हणतो, "कौंतेय म्हणून आदरानं, जेष्ठ म्हणून नम्रतेने, दाता म्हणून कृतज्ञतेने, कर्णाला तिलाजंली दे" . या वाक्यातून कर्णाच्या कर्तृत्वाचा व असामान्य गुणांचे दर्शन घडते .

जन्म देताच कुंतीने ज्यामुलाचा त्याग केला त्याच मुलाचे अधिरथ व राधाई याच्या प्रेमाने संगोपन केले . ज्याचे बालपण राजवाड्यात इतर भावंडाबरोबर जावयास होते तेथे त्याच्या तिरस्कार करून द्रोणाचार्यांनी ब्रम्हास्त्र शिकवण्याचे नाकारले म्हणून परशु रामाकडे शिष्य होऊन ब्रम्हास्त्र मिळवले पण त्याच बरोबर गुरूसेवेसाठी पाळलेल्या संयमातून दोन उग्र शाप नशिबी आले . द्रौपदीने केलेला अपमान असो वा दुर्योधनची मैत्री कर्णाने सर्वक्षण स्विकारले . जरासंधाला पराजय करून आपल्या कर्तृत्वाने चंपा नगरीचे राज्य कर्णाने मिळवले .

नशिबाने कर्णासमोर जी आव्हाने ठेवली ती त्यांने समर्थपणे पार पाडली . आशुषभर कर्ण देत राहिला कुणाकडूनही त्याने अपेक्षा ठेवली नाही . दुर्योधनची चुकीचा आहे, अथवा त्याचा पराजय होणार, त्याच्यामुळे आपल्याला आपल्याच भावंडाबरोबर युद्ध करावे लागणार याची जाणीव असूनही कर्णाने मैत्री सोडली नाही तो सदैव केलेल्या मैत्रीला जागला . कर्णाला सदैव उपेक्षित जगावे लागले .

इतरानी केलेला अपमान व तिरस्कार आणि दुर्योधनाशी केलेल्या मैत्री यामुळे कर्ण अर्धमाच्या बाजूने ऊभा राहिला परंतु त्यामुळे त्याच्यातील योद्धा कोठेही कमी पडला नाही . चिखलात उगवणा-या कमळाप्रमाणे कर्णाचे व्यक्तिमत्व सदैव सर्वाना स्मरणीय राहिल असेच आहे अर्धमाच्या बाजूने ऊभा असला तरी त्याचे अस्तित्व सर्वाना आदर्श ठरणारे असे आहे . जन्मताच कवच आणि कुंडल घेऊन येणारा कर्ण, रणांगणातही स्वतःहाच्या पराक्रमाने अंग देशाचे राज्य मिळवणारा कर्ण, द्रौपदीच्या अपमानाने व्यथित झालेला कर्ण, एक मुलगा, एक भाऊ, पती, पिता, या सर्व नात्यांना न्याय देणारा त्यांच्या भावना जपणारा असा राधाईचा राधेय अर्जुनापेक्षा आपल्याला उजवा वाटतो .

महाभारतात कर्णाला कधीच न्याय नाही मिळाला वेगवेगळ्या प्रसंगातून राधेयचा जिवनपट उलघडत जातो व आपल्याला कर्णातील राधेय जवळून पाहायला मिळतो . नियतीशी लढून राधेयने महाभारतातील आपले स्थान अजरामर केले . त्याच्या जिवनात घडणारी प्रत्येक घटना राधेय मधील असामान्य गुणांचे दर्शन घडवतो . राधेय हे नाव कर्णाला त्याचे संगोपान करणारी माता राधाई वरून मिळाले . राधेय या ग्रंथात रणजित देसाई यांनी ज्ञाय देण्याचे काम केले .

## मी कसा शिकवतो

परिक्षार्थी विद्यार्थ्यांना अध्ययनार्थी बनवण्यासाठी शिकवण्याच्या पध्दती विषया प्रमाणे बदलतात . शास्त्र विषयात अनेकदा संकल्पना समजावून देणे गरजेचे असते . माहिती आणि ज्ञान या एकाच नाण्याच्या दोन बाजू आहेत . “परिक्षार्थीसाठी” केवळ माहिती पुरेशी असते पण अध्ययनार्थी होण्यासाठी माहिती सोबत संकल्पनेची पूर्ण जाण असावी लागते . षाच दृष्टीकोनातून मी काही प्रयोग करून पाहीले . माझे दोन गुरु श्री . गाडगीळ नाशिक आणि डॉ . डेवपुरकर पुणे विद्यापिठ यांच्या शिकवण्याच्या पध्दतीतून स्फुर्ती घेवून काही प्रयोग योजले .

प्रथम म्हणजे मी शिकवण्यातला मी पणा काढून टाकला . केवळ एकपात्री भाषण न ठेवता प्रत्येक शिकवण्याचा तास हा परिसंवाद केला . मुलांना या परिसंवादात भाग घ्यायला लावतो . यामुळे प्रत्येक मुलाचा शिकवण्यात आणि शिकण्यात सहभाग वाढला . यामुळे कोणत्याही विद्यार्थ्याला “आपण एकटे पडलो” असे वाटत नाही आणि त्यामुळे अभ्यासात रस वाढतो .

दुसरी गोष्ट मी चालू केली ती म्हणजे विषयाला धरून काही कोडी कूटप्रश्न विद्यार्थ्यांना घालू लागलो . यात कुतूहल जागृत होण्यास मदत झाली . विद्यार्थी आपणहून काही जास्तीचे वाचन चिंतन करू लागले . षाचा त्यांना स्वतःच्या अभ्यासातही फायदा होऊ लागला . आठवडयार्त ला एक दिवस मी कोडी कूटप्रश्नासाठी ठेवला आहे . आता अनेकदा विद्यार्थी स्वतः वाचन करून प्रश्न विचारतात त्याची उत्तरे कधी कधी मलाही येत नाहीत . ंग हेच प्रश्न इतर विद्यार्थ्यांना विचारतो आणि एक छोटा परिसंवादच घडतो सर्व विद्यार्थी त्यात भाग घेतात आणि बहुदा त्या गुढ प्रश्नाचे उत्तर मिळते .

या दोन उपक्रमांबरोबरच मी माझ्या शिकवण्याच्या पध्दतीमध्येही थोडा बदल केला . विषयाचे सार समजावून देताना मी बरीच उदाहरणे देतो . बहुधा ही उदाहरणे दैनंदिन जीवनातील असतात . षा उदाहरणांमुळे एखाद्या संकल्पनेची जाण आणि सखोल ज्ञान विद्यार्थ्यांना होते असे मला दिसून आले . आमच्या जीवशास्त्रातील अनेक संकल्पना कळणे जरा अवघड जाते . षाचे मुख्य कारण म्हणजे पेशी आणि त्यातील प्रक्रीयांचा अतयंत लहान आकार . हा इतका लहान असतो की कधी कधी सूक्ष्मदर्शकाखालीही दिसत नाही अशा परिस्थितीत संकल्पना समजावून देणे अतिशय अवघड जाते . त्यासाठी मी दैनंदिन जीवनातील घडामोडी गोष्टी यांचा आधार घेतो . या गोष्टी विद्यार्थ्यांनी पाहिलेल्या असतात किंवा अनुभू वलेल्या असतात किंवा अनुभवलेल्या असतात . त्यातून संकल्पना समजावून घेणे सहज शक्य होते .

या सा-याबरोबरच आजकाल संगणक आणि इंटरनेट यामुळे माहितीचे मायाजालच उघडले आहे . त्यांचा उपयोग करून विविध माहिती मी विद्यार्थ्यांना उपलब्ध करून देतो . आजकाल विद्यार्थी देखील ही साधने वापरू लागले आहेत .

अशा नावीन्यपूर्ण प्रयोगांनी विद्यार्थ्यांमध्ये शिकण्याची गोडी वाढून ते परिक्षार्थी न रहाता अध्ययनार्थी बनतील असा माझा विश्वास आहे .

**Journal of Bioscience:** A very good Journal for the study of life Science

Dr. Raval Prachi

Botany Department

'Journal of Biosciences' is published by Indian Academy of Sciences, Bangalore from Springer publisher. It is an important document in which original research articles in the area of Biology and Health Science are published. Approximately seven to eight articles are published in every issue. Every volume is a collection of information which is of tremendous importance for the study of life science. Review article is also published in which summary of past literature is mentioned which provides useful knowledge to future generation.

Article on Cross protection, due to RNA-interference responsible for vaccination in plants is very informative which enlightens research done by Nobel Prize winner scientist, Fire and Mello in 2006. Mild strain of the pathogen injected before the infection is responsible for giving signals through RNA which inhibits protein coat formation of pathogenic viruses. These two scientist achieved Nobel Prize for this discovery and characterization in *Caenorhabditis elegans* in Physiology and Medicine. In the present article the author stated that research done by early botanist should not be ignored.

Article which is on History and Tread of herbal medicines in that author has mentioned number of books published from sixteen century.

Article on Swainsonine a natural alkaloid explains a mechanism of destruction of mitochondrial activated pathway leads to a suppression of tumour formation.

Article on study of ovariectomized with diet induced hypercholesterolemia shows that, mice like animal were more susceptible to Alzheimer's disease.

I suggest this journal for referring Biotechnologist, Botanist and Zoologist in their research.

## Welcome to the International Year of Statistics

2013 is the International Year of Statistics. More than 1,200 organizations—professional statistical societies, colleges and universities, primary and secondary schools, businesses, government entities, and research institutes— are participating in this worldwide event. Why? Because statistics have powerful and far-reaching effects on everyone.

### A World without Statistics

## 2013 – International Statistics year

We are using the principles of statistics in every phase of life. Only the thing is that we are not aware of it.

Whenever we have to take some decision- we are using some sort of information (say back experience/ or say some data) and then we take decision. (Which is nothing but “Regression” in statistics)?

Whenever we want to do some investment in Market we are thinking of risk factor (That is probability of loss in investments.).

Whenever we want to purchase even a dress we think of what is purpose of purchase (Regular or functional) Then what should be the price? Or About the personality, then we decide. (Which is nothing but collection of information, sorting of information etc.)

A lay man is using only half part of statistics (i.e. statistics as a data). But I feel that now a day it is necessary that we must train our mind- set in analytical way, so that our decisions will be taken with heart and with help of brain also. We can train our next generation also so that

- 1) They will not take decisions blindly.
- 2) They will not accept modern fashions/ thoughts/ trends blindly.

So, all the world wide leading Statistics Institutes have decided to celebrate year 2013 as “INTERNATIONAL STATISTICS YEAR” to increase the interest of people regarding Statistics.

Here I will like to give some information of R. A. Fisher who is called as “Father of Statistics”

## R. A. Fisher – Father of Statistics

Ronald Aylmer Fisher was born in London on 17<sup>th</sup> February 1890. R. A. Fisher showed ability at an early age. He was particularly precocious in mathematics. Fisher went up to Caius College Cambridge graduating in 1912 with a first in mathematics. Fisher's tutor was an astronomer and his first paper On an Absolute Criterion for Fitting Frequency Curves published while he was still a student came out of his study of the theory of errors.

After graduating Fisher had several jobs—in an actuarial office and on a farm in Canada amongst others. Poor eyesight barred him from service in the First World War. He was a schoolmaster when he published his Frequency Distribution of the Values of the Correlation Coefficient in Samples from an Indefinitely Large Population (1915) and on The Correlation between Relatives on the Supposition of Mendelian Inheritance (1918).

. . **Fisher left Roth Amsted in 1933** as head of a statistics department drawing pilgrims from all over the world. There he developed the analysis of variance as well as a new approach to experimental design. His principles of randomisation, replication and blocking were presented in Statistical Methods for Research Workers (1925), The Arrangement of Field Experiments (1926) and more fully in The Design of Experiments (1935).

In 1943 Fisher returned to Cambridge as professor and head of the Department of Genetics. His Theory of Inbreeding provided a theoretical analysis of the mouse experiments he had been conducting since his London days.

In 1958 Fisher challenged Austin Bradford Hill's inference from the association between smoking and lung cancer that the former was an important cause of the latter.

He retired officially from Cambridge in 1957 but stayed until 1959. He spent the last three years of his life in Adelaide as a Research Fellow at the Commonwealth Scientific and Industrial Research Organization (CSIRO).

Fisher died in Adelaide on July 29<sup>th</sup> 1962 and his ashes lie there in St. Peter's Cathedral.

### Fisher received plenty of recognition.

He was elected a Fellow of the Royal Society in 1929 (certificate of election), awarded its Royal Medal in 1938, Darwin Medal in 1948 and Copley Medal in 1955; he was knighted in 1952.
